Re: *Cohen et al. v. Apple*, No. 3:19-cv-05322 (N.D. Cal.)

Dear Counsel:

Being sent concurrently herewith via secure FTP is Apple Inc.'s first production of documents in the above captioned matter, bearing the Bates numbers APL-COHEN_00000001 through APL-COHEN_00055549. The documents produced are responsive to Plaintiffs' First Request for Production of Documents to Apple Inc. (the "Requests").

Specifically, these documents are responsive to Requests for Production 1, 4, 5, 7, 9, 11, 13(a), 13(b), 13(f), 13(g), 13(h), 13(l), and 17(a). They were compiled through a search of publicly available information, including Apple's website and the FCC website, and are being produced subject to the limitations outlined in Apple's April 6, 2020 Objections & Responses to Plaintiffs' Requests, and discussed during the Parties' subsequent meet and confer on April 14, 2020.

In accordance with paragraph 21 of Supplemental Order to Order Setting Initial Case Management Conference in Civil Cases Before Judge William Alsup, and without waiver of attorney-client and/or work product privilege, Apple states that, at the direction of Apple's counsel, its eDiscovery team gathered the iOS User Guides, RF Exposure Disclosures, and Warranty Information concerning the iPhones believed to be at issue in this action based on the information provided by Plaintiffs to date. That information is publicly available and was gathered from custodians support.apple.com and help.apple.com. Apple further states that, at the direction of Apple's counsel, Dechert LLP gathered FCC grants of authorization and publicly-available application and supporting materials filed in the FCC database (including without limitation SAR Reports and attachments thereto, manuals, and RF exposure statements) for iPhones believed to be at issue in this action based on the information provided by Plaintiffs to date. This information is also publicly available and was gathered from the website <https://www.fcc.gov/oet/ea/fccid>.

Apple provides the additional following information regarding this document production:
